1. Adapted: Same as paired activity for able-bodied athletes.
2. No sport will play fewer contests during the season than they play under the current format.
3. Doubleheaders are already possible in these sports.
4. The number of games per week in a season.
5. The Process to Increase/Decrease the Number of Contests provided that the increase does not exceed the 2/1 policy of games per week in a season.
6. The Participation in (2) two separate varsity team competitions on the same calendar date shall count as two events toward the total allowable events and all team matches during the events will count toward the 45 total allowable competitions. For example: A school sends a team to participate in a Saturday varsity tournament in Andover and sends another team to participate in a varsity tournament in Blaine. Both events would count toward the 16 allowable events and all matches in the two separate events would count toward the 45 allowable competitions for individual wrestlers and the team matches.

1. A President of a coaches association requests for an increase/decrease from the current number of contests.
   A. The request is made to the Board of Directors regarding the increased/decreased number of contests.
   B. The request must include:
      1) the number of contests to be increased/decreased;
      2) the rationale for the increase/decrease; and
      3) affirmation that the request has the support of the coaches association in that sport.
   C. The League office will send the request to the member schools of the League registered for that activity.
   D. The response must be signed by the Designated School Representative and the head varsity coach of the activity in question affirming that the matter has been discussed at a local school board meeting where the board has been advised of the economic impact.
   E. All responses must be returned to the League office by the prescribed date.
2. The League’s Executive Director will approve the increase/decrease in the number of contests provided that:
   A. A majority of votes from the schools registered for the activity who return the survey are in the affirmative; and
   B. The increase in the number of contests will be played on a Friday evening, Saturday, or vacation day OR that the increased number of contests will not cause the team to miss school time.
3. Requests to increase/decrease the number of contests will be received by the Board of Directors on November 1 of each odd numbered year.

In any game the starting pitcher may return to the mound once in relief, however, if the pitcher is not a starter, the pitcher may make two relief appearances. - Once the limit is reached a pitcher may finish pitching to that batter.
- One day of rest is required if a pitcher pitches two straight days.
- Days of rest are measured in calendar days, not 24 hour periods. If a player throws 55 pitches on Monday they are not able to pitch on either Tuesday or Wednesday, but could pitch again anytime on Thursday.
- Only pitches thrown to a batter count toward the pitch count.
- When pitching below the varsity level, those pitch counts apply. The pitcher must meet the rest requirements for that level before pitching at the varsity level. When pitching at the varsity level those pitch count rules apply. The player must then meet those rest requirements before pitching at a lower level.

*The maximum is extended to 115 once Section Playoffs begin

**Penalties:**

**Violation of Pitch Count Rule:**

When a pitcher pitches more than the allotted number of pitches or does not meet the rest requirement they become an ineligible athlete.

1st Offense: Game is forfeited and the head coach is censured.
2nd Offense in the same season: Game is forfeited and the head coach is suspended for one game.
3rd Offense in the same season: Game is forfeited and the head coach is suspended for four games.

**Violation of tracking pitches policy:**

Failure to record and track pitches as per the following stipulations will result in the following penalties:

1st Offense: Head Coach is reminded.
2nd Offense: Head Coach is censured.
3rd Offense: Head Coach is suspended for one game.
4th Offense: Head Coach is suspended for four games.
Player participation limitations include participation in Junior High, B-Squad, Junior Varsity and Varsity games.

If the next period is not the 5th period for the student, the student must serve the penalty and count that period toward the maximum allowable periods for the day. If the coach wishes to ensure that a student has the desired further periods of participation available, it is the coach’s responsibility to not have the student on the ice towards the end of a period when any penalty time assessed would carry over to the next period in which the coach had intended that the student not participate.</td>

5. **ADAPTED ATHLETICS – ELIGIBILITY REQUIREMENTS**
   The League has three competitive interscholastic divisions: Physically Impaired (PI), Cognitively Impaired (CI) and Autism Spectrum Disorder (ASD). Participation in the interscholastic program of a high school is limited to students in grades 7 through 12. Students in an ungraded setting are first eligible when their age peers are in the 7th grade. Students will be eligible for 12 consecutive semesters (6 years), beginning with their or their peers initial entrance into the 7th grade.

   The League requires a sports qualifying exam every three (3) years for participants in competitive athletics. The League acknowledges that some students with disabilities, like some students without disabilities, will be unable to participate in adapted athletics due to the competitive nature of the programs and for reasons unrelated to their disability. Like other students who do not "make the team", these students should be directed to alternative programs which are less competitive and more recreational in nature.

   Students may not participate in both PI and CI divisions. If a student participates in both divisions the penalty for the use of an ineligible player will be enforced and result in an automatic forfeiture of the game.

   **A. PI Division** – The League Adapted Athletics PI Division program is specifically intended for students with physical impairments who have medical clearance to compete in competitive athletics. A student is eligible to compete in the PI Division with one of the following criteria.

   The student must have a diagnosed and documented impairment specified from one of the two sections below: (Must be diagnosed and documented by a Physician/Physicians Assistant):

   1. Neuromuscular, postural/skeletal, traumatic, growth, or neurological impairment that affects motor function, modifies gait patterns, or requires the use of a prosthesis or a mobility device including but not limited to, canes, crutches, or wheelchairs.
   2. Cardio/respiratory impairment that is deemed safe for competitive athletics but limits the intensity and duration of physical exertion such that sustained activity for over five minutes at 60% of maximum heart rate for age results in physical distress in spite of appropriate management of the health condition.

   **Note**: A student with a condition that can be appropriately managed with appropriate medications, which eliminate physical or health endurance limitations, will NOT be considered to be eligible for adapted athletics.

   **Specific exclusions to PI competition:**
   The following health conditions **without coexisting physical impairments as outlined above** do not qualify the student to participate in the PI Division even though some of the conditions below may be considered Health Impairments by an individual's physician, student's school, or a government agency. This list is not all-inclusive and the conditions are examples of non-qualifying health conditions; other health impairments that are not listed below may also be non-qualifying for participation in the PI Division.

   • Attention Deficit Hyperactive Disorder (ADHD)
   • Emotional Behavioral Disorder (EBD)
   • Autism Spectrum Disorders (including Asperger’s Syndrome)

B. CI Division – The MSHSL Adapted Athletics CI Division program is specifically intended for students with cognitive impairments who have medical clearance to compete in competitive athletics. A student is eligible to compete in the CI Division by meeting criteria 1 or 2 below:

1) Minnesota Rule: 3525.1333 DEVELOPMENTAL COGNITIVE DISABILITY

Subpart 1. Definition. "Developmental Cognitive Disability (DCD)" means a condition resulting in significantly below average intellectual functioning and concurrent deficits in adaptive behavior that adversely affects educational performance and requires special education and related services. DCD does not include conditions primarily due to a sensory or physical impairment, traumatic brain injury, autism spectrum disorders, severe multiple impairments, cultural influences, or inconsistent educational programming.

Subpart 2. Criteria. The team shall determine that a pupil is eligible as having a DCD and is in need of special education instruction and related services if the pupil meets the criteria in items A and B.

a) The pupil demonstrates below average adaptive behavior in school and home, and, if appropriate, community environments. For the purposes of this item, "below average" means:

(1) a composite score at or below the 15th percentile on a nationally normed, technically adequate measure of adaptive behavior; and

(2) documentation of needs and the level of support required in at least four of the seven adaptive behavior domains across multiple environments. Systematic observation and parent input must be included as sources to document need and level of support. All of the following adaptive behavior domains must be considered:
   (a) daily living and independent living skills;
   (b) social and interpersonal skills;
   (c) communication skills;
   (d) academic skills;
   (e) recreation and leisure skills;
   (f) community participation skills; and
   (g) work and work-related skills.

Other sources of documentation may include checklists; classroom or work samples; interviews; criterion-referenced measures; educational history; medical history; or pupil self-report.

b) The pupil demonstrates significantly below average general intellectual functioning that is measured by an individually administered, nationally normed test of intellectual ability. For the purposes of this subitem, "significantly below average general intellectual functioning" means:

(1) mild-moderate range: two standard deviations below the mean, plus or minus one standard error of measurement; and

(2) severe-profound range: three standard deviations below the mean, plus or minus one standard error of measurement.

Significantly below average general intellectual functioning must be verified through a written summary of results from at least two systematic observations with consideration for culturally relevant information, medical and educational histories, and one or more of the following: supplemental tests of specific abilities, criterion-referenced tests, alternative methods of intellectual assessment, clinical interviews with parents, including family members, if appropriate, or observation and analysis of behavior across multiple environments.

2) Students will also be eligible for the CI Division if they meet the following criteria:

The student must have a diagnosed and documented cognitive impairment. Cognitively impaired refers to students with sub-average intellectual function defined by a Full Scale intelligence quotient of 70 or below, using a standardized, nationally-normed, technically adequate, and individually administered intelligence test.

Specific exclusions from CI competition:

A student becomes ineligible to participate in Adapted Athletics when they have attained a level of cognitive performance that exceeds the eligibility requirements. A student who has reached a level of cognitive performance that exceeds the eligibility requirements after the start of a season will be permitted to complete that sports season.

C. Challenges to a student's eligibility to participate in PI and CI adapted athletics:

A school may file a written challenge regarding a student’s eligibility to participate in Adapted Athletics based on the qualifications stated above. Challenges must be submitted within 24 hours of the end of a game in which an ineligible player participated. A challenge submitted after the deadline will not be honored. The student shall remain eligible during the review process. The committee’s findings will be final and follow the student through the remaining years of eligibility unless there is a change in physical or cognitive status.
1) Upon receipt of a written challenge the League will activate the following review process:
   a) request a brief statement from the school/coach supporting the eligibility of the athlete; and
   b) review the school's/coach's submission and the school's supporting data (testing, medical history, school
documentation) by one reviewer who will submit a brief written statement regarding the eligibility status.

2) Appeal Process:
   If the initial review denies eligibility an appeal can be requested. A panel of three (3) reviewers will be
   convened. Two (2) of these reviewers must be from different disciplines (MD, Adapted PE teacher, PT, etc).
   The school/coach will be asked to submit a video of the player during a game or during PE class that will best
demonstrate the disability. The video will be at the schools expense.

D. Autism Spectrum Disorder (ASD)

   Eligibility for participation in the ASD Division is as follows:
   1) The student must meet the current eligibility criteria established by the Minnesota State High School League
      regarding age, semesters of eligibility, progress towards graduation, physical form on file, etc.
   2) There must be documented evidence of the student having Autism Spectrum Disorder (ASD) provided by the
      student's school district.
   3) Students must be able to participate in the activity without having physical prompts by an adult, coach or
      other participant.
   4) A student with ASD and a composite IQ of 70 or lower would qualify to participate in either the CI or ASD
      division but not both in the same season.
   5) A student with ASD who also has a documented physical impairment (according to page 4 of the MSHSL
      Physical Form) would qualify to participate in either the PI or the ASD division but not both in the same
      season.

6. LAST DATE TO JOIN A TEAM

1. SEASON BEGINS
   Practice may begin on the 15th Monday preceding the finals of the state tournament.

2. PRE-SEASON PRACTICE/HEAT ACCLIMATIZATION POLICY
   Cross Reference: Bylaw 208 (Board Policy Definitions for Summer Football Practice Restrictions)
   A. Schedule for 14 Calendar Day Acclimatization Period:
      1) Days 1–5: “Contact Practices” are not allowed.
         a) No single practice may last more than 2 hours with total practice time per day not to exceed 4 hours.
         b) There must be at least a 2 hour recovery period prior to the second practice.
         c) Double practice days must be followed by a single practice day.
         d) A 1 hour walk-thru is allowed each day that there is a single practice, but there must be at least a 1 hour recovery period prior to the walk-thru.
            (1) As an alternative, a walk-thru for a maximum of 45 minutes may be conducted prior to practice on a one practice day, but must be followed by at least a 15 minute recovery period before another practice may begin.
         e) Day 1: Helmets only
         f) Day 2: Shoulder pads may be worn for up to 1 hour of practice time
         g) Days 3 & 4: Helmets and shoulder pads only
         h) Day 5: Full pads are allowed — No thud or live action
      2) Days 6 & 7: Rest days, no practice is allowed.
      3) Days 8–12: No restrictions on what equipment can be worn.
         a) No practice may last more than three hours, with total practice time per day not to exceed five hours.
         b) Double practice days must be followed by a single practice day.
         c) There must be at least a two hour recovery period prior to the second practice.
         d) A one hour walk-thru is allowed on single practice days, but there must be at least a one hour recovery period prior to the walk-thru.
            (1) As an alternative, a walk-thru for a maximum of 45 minutes may be conducted prior to practice on a one practice day, but must be followed by at least a one hour recovery period before another practice may begin.
      e) There may not be more than one contact practice per day.
      4) Day 12 (day prior to scrimmage): Contact practices are not allowed.
      5) Day 13: Schools may participate in one “live action” interschool scrimmage event (multiple teams may be involved).
      6) Day 14: No practice — rest day. 14 Day Acclimatization ends.
      7) Option for one “long” practice: When two practices per day are held and the two hour recovery period creates an issue, teams may opt to have a second practice of one hour in length, if there is a one hour recovery period, AND conditioning is conducted only during one of the two practices. A long practice day must be followed by a single practice day.
      8) Day 15: No restrictions on number or length of practices. No more than two contact practices per week. Consideration in regard to the amount of contact must be given to players involved in lower level games.
      9) Day 18: First date on which interscholastic contests are allowed. Note: If the varsity team plays on Day 18, a lower level game (B/JV) may be scheduled on day 17.

B. Definitions:
   1) Heat Acclimatization Period is defined as the initial 14 consecutive day period of pre-season practice, which begins the first day of practice prior to the regular season. Any practices or conditioning conducted before this time shall not be considered a part of the heat-acclimatization period.
   2) Practice is defined as the period of time a participant engages in coach-supervised, school approved, sport or conditioning-related physical activity, including stretching, running, conditioning or physical training in the skills and fundamentals. Strength training and team meetings or video sessions do not count as a practice for the purpose of this policy.
   3) Levels of Contact, as defined by USA Football, focuses on varying intensity levels throughout practices, to build player confidence, ensure their safety and prevent both physical and mental exhaustion. Six intensity levels are used to introduce players to practice drills which position them to master the fundamentals and increase skill development.
      a) AIR: Intensity = 0  Players run a drill unopposed without contact.
      b) BAGS: Intensity = 1  Drill is run against a bag or another soft-contact surface.
c) **CONTROL**: Intensity = 2 Drill is run at assigned speed until the moment of contact; one player is predetermined the ‘winner’ by the coach. Contact remains above the waist and players stay on their feet when involved with contact.

d) **RESTRICTED CONTACT**: Intensity = 3 Teaching safe & proper techniques (block, shed, tackle) involving shoulder pads, and wearing helmets for protection. Contact above the hips only with hands, shoulders and chest. Keep the head out! Use quick whistle; no gang-tackling or cut blocking/tackling. Players stay on their feet when involved in contact.

e) **THUD**: Intensity = 4 Drill is run at assigned speed through the moment of contact; no pre-determined "winner." Contact remains above the waist, players stay on their feet and a quick whistle ends the drill.

f) **LIVE ACTION**: Intensity = 5 Drill is run in game-like conditions and is the only time that players are taken to the ground.

4) **Contact Practice** is defined as a practice during which drills and/or team work includes “Thud” or “Live Action,” as described below. There are no restrictions on “Air,” “Bags,” “Control,” and “Restricted Contact.” The Contact portion of this practice may not exceed 30 minutes.

5) **Walk-thru** is defined as a teaching opportunity with the athletes not wearing protective equipment. A walk-thru is not considered part of the 2 or 3 hour single practice limitation, but does count toward the daily practice time limit; cannot last more than 1 hour; and does not include any kind strength training or conditioning activities. A “walk-thru” is only for running plays and teaching team schemes and assignments — full speed drills and/or physical contact are not allowed. Special team skills (punting and catching punts, kickoffs, and place kicking) are allowed.

6) **Recovery Period** is defined as the time between the end of one practice or walk-thru and the beginning of the next practice or walk-thru. During this time athletes must rest in a cool environment (65-80 degrees F), with no sport or conditioning-related activity permitted. Team meetings and video may be part of this recovery period if conducted in a cool environment.

C. **Penalty:**

1st Offense: Head Coach suspended for two games. 2nd Offense: Head Coach suspended for four games and not allowed to coach in post-season.

**Note:** This schedule and progression is safer and better for kids and may keep more kids involved with football. Less contact, less heavy conditioning will keep kids safer; they will retain more mentally; there will be less time missed due to injuries, and by the time of the first game your team may actually be more effective than by following previous practice schedules.

3. **PRACTICE SESSIONS BEFORE FIRST CONTEST**

*Cross Reference: Bylaw 411.10 (Scheduling of Contests)*

B. Five separate and complete days of organized practices must be held, beginning on the second Monday of the season, prior to any inter-school practices or scrimmages being held.

C. Games may be scheduled beginning the Thursday of the second week of practice exclusive of the five days of conditioning. If the varsity plays a game on that first Thursday, a lower level game (B/JV) may be scheduled on the previous day (Wednesday of the second week).

5. EQUIPMENT ISSUED
   Equipment may be issued on the Friday or Saturday preceding the authorized date for the opening of practice (except Sunday).

6. ADAPTED ATHLETICS – ELIGIBILITY REQUIREMENTS
   The League has two competitive interscholastic divisions: Physically Impaired (PI) and Cognitively Impaired (CI). Participation in the interscholastic program of a high school is limited to students in grades 7 through 12. Students in an ungraded setting are first eligible when their age peers are in the 7th grade. Students will be eligible for 12 consecutive semesters (6 years), beginning with their or their peers initial entrance into the 7th grade.
   The League requires a sports qualifying exam every three (3) years for participants in competitive athletics. The League acknowledges that some students with disabilities, like some students without disabilities, will be unable to participate in adapted athletics due to the competitive nature of the programs and for reasons unrelated to their disability. Like other students who do not “make the team”, these students should be directed to alternative programs which are less competitive and more recreational in nature.
   Students may not participate in both PI and CI divisions. If a student participates in both divisions the penalty for the use of an ineligible player will be enforced and result in an automatic forfeiture of the game.
   A. PI Division – The League Adapted Athletics PI Division program is specifically intended for students with physical impairments who have medical clearance to compete in competitive athletics. A student is eligible to compete in the PI Division with one of the following criteria.
      The student must have a diagnosed and documented impairment specified from one of the two sections below:
      (Must be diagnosed and documented by a Physician and or Physicians Assistant):
      1) Neuromuscular, postural/skeletal, traumatic, growth, or neurological impairment that affects motor function, modifies gait patterns, or requires the use of a prosthesis or a mobility device including but not limited to, canes, crutches, or wheelchairs.
      2) Cardio/respiratory impairment that is deemed safe for competitive athletics but limits the intensity and duration of physical exertion such that sustained activity for over five minutes at 60% of maximum heart rate for age results in physical distress in spite of appropriate management of the health condition.
      Note: A condition that can be appropriately managed with appropriate medications, which eliminate physical or health endurance limitations, will NOT be considered to be eligible for adapted athletics.
      Specific exclusions to PI competition:
      The following health conditions without coexisting physical impairments as outlined above do not qualify the student to participate in the PI Division even though some of the conditions below may be considered Health Impairments by an individual’s physician, student’s school, or a government agency. This list is not all-inclusive and the conditions are examples of non-qualifying health conditions; other health impairments that are not listed below may also be non-qualifying for participation in the PI Division.
      • Attention Deficit Disorder (ADD)
      • Attention Deficit Hyperactive Disorder (ADHD)
      • Emotional Behavioral Disorder (EBD)
      • Autism Spectrum Disorders (including Asperger’s Syndrome)

B. CI Division – The MSHSL Adapted Athletics CI Division program is specifically intended for students with cognitive impairments who have medical clearance to compete in competitive athletics. A student is eligible to compete in the CI Division by meeting criteria 1 or 2 below:

1) Minnesota Rule: 3525.1333 DEVELOPMENTAL COGNITIVE DISABILITY

Subpart 1. Definition. "Developmental Cognitive Disability (DCD)" means a condition resulting in significantly below average intellectual functioning and concurrent deficits in adaptive behavior that adversely affects educational performance and requires special education and related services. DCD does not include conditions primarily due to a sensory or physical impairment, traumatic brain injury, autism spectrum disorders, severe multiple impairments, cultural influences, or inconsistent educational programming.

Subpart 2. Criteria. The team shall determine that a pupil is eligible as having a DCD and is in need of special education instruction and related services if the pupil meets the criteria in items A and B.

a) The pupil demonstrates below average adaptive behavior in school and home, and, if appropriate, community environments. For the purposes of this item, "below average" means:

(1) a composite score at or below the 15th percentile on a nationally normed, technically adequate measure of adaptive behavior; and

(2) documentation of needs and the level of support required in at least four of the seven adaptive behavior domains across multiple environments. Systematic observation and parent input must be included as sources to document need and level of support. All of the following adaptive behavior domains must be considered:

   (a) daily living and independent living skills;
   (b) social and interpersonal skills;
   (c) communication skills;
   (d) academic skills;
   (e) recreation and leisure skills;
   (f) community participation skills; and
   (g) work and work-related skills.

Other sources of documentation may include checklists; classroom or work samples; interviews; criterion-referenced measures; educational history; medical history; or pupil self-report.

b) The pupil demonstrates significantly below average general intellectual functioning that is measured by an individually administered, nationally normed test of intellectual ability. For the purposes of this subitem, "significantly below average general intellectual functioning" means:

(1) mild-moderate range: two standard deviations below the mean, plus or minus one standard error of measurement; and

(2) severe-profound range: three standard deviations below the mean, plus or minus one standard error of measurement.

Significantly below average general intellectual functioning must be verified through a written summary of results from at least two systematic observations with consideration for culturally relevant information, medical and educational histories, and one or more of the following: supplemental tests of specific abilities, criterion-referenced tests, alternative methods of intellectual assessment, clinical interviews with parents, including family members, if appropriate, or observation and analysis of behavior across multiple environments.

2) Students will also be eligible for the CI Division if they meet the following criteria:

The student must have a diagnosed and documented cognitive impairment. Cognitively impaired refers to students with sub-average intellectual function defined by a Full Scale intelligence quotient of 70 or below, using a standardized, nationally-normed, technically adequate, and individually administered intelligence test.

Specific exclusions from CI competition:

A student becomes ineligible to participate in Adapted Athletics when they have attained a level of cognitive performance that exceeds the eligibility requirements. A student who has reached a level of cognitive performance that exceeds the eligibility requirements after the start of a season will be permitted to complete that sports season.
C. Challenges to a student's eligibility to participate in PI and CI adapted athletics:

A school may file a written challenge regarding a student’s eligibility to participate in Adapted Athletics based on the qualifications stated above. Challenges must be submitted within 24 hours of the end of a game in which an ineligible player participated. A challenge submitted after the deadline will not be honored. The student shall remain eligible during the review process. The committee’s findings will be final and follow the student through the remaining years of eligibility unless there is a change in physical or cognitive status.

1) Upon receipt of a written challenge the League will activate the following review process:
   a) request a brief statement from the school/coach supporting the eligibility of the athlete; and
   b) review the school’s/coach’s submission and the school’s supporting data (testing, medical history, school documentation) by one reviewer who will submit a brief written statement regarding the eligibility status.

2) Appeal Process:

   If the initial review denies eligibility an appeal can be requested. A panel of three (3) reviewers will be convened. Two (2) of these reviewers must be from different disciplines (MD, Adapted PE teacher, PT, etc). The school/coach will be asked to submit a video of the player during a game or during PE class that will best demonstrate the disability. The video will be at the schools expense.

7. LAST DATE TO JOIN A TEAM

A. To be eligible for section and state competition, a student must be a member of that school’s team no later than the fourth Monday (the 22nd calendar day) from the official start of that sport season.

5. **EQUIPMENT ISSUED**
   Equipment may be issued on the Friday or Saturday preceding the authorized date for the opening of practice (except Sunday).

6. **ADAPTED ATHLETICS – ELIGIBILITY REQUIREMENTS:**
   The League has two competitive interscholastic divisions: Physically Impaired (PI) and Cognitively Impaired (CI). Participation in the interscholastic program of a high school is limited to students in grades 7 through 12. Students in an ungraded setting are first eligible when their age peers are in the 7th grade. Students will be eligible for 12 consecutive semesters (6 years), beginning with their or their peers initial entrance into the 7th grade.
   The League requires a sports qualifying exam every three (3) years for participants in competitive athletics. The League acknowledges that some students with disabilities, like some students without disabilities, will be unable to participate in adapted athletics due to the competitive nature of the programs and for reasons unrelated to their disability. Like other students who do not “make the team”, these students should be directed to alternative programs which are less competitive and more recreational in nature.
   Students may not participate in both PI and CI divisions. If a student participates in both divisions the penalty for the use of an ineligible player will be enforced and result in an automatic forfeiture of the game.
   **A. PI Division** – The League Adapted Athletics PI Division program is specifically intended for students with physical impairments who have medical clearance to compete in competitive athletics. A student is eligible to compete in the PI Division with one of the following criteria:
   The student must have a diagnosed and documented impairment specified from one of the two sections below:
   (Must be diagnosed and documented by a Physician/Physicians Assistant):
   1) Neuromuscular, postural/skeletal, traumatic, growth, or neurological impairment that affects motor function, modifies gait patterns, or requires the use of a prosthesis or a mobility device including but not limited to, canes, crutches, or wheelchairs.
   2) Cardio/respiratory impairment that is deemed safe for competitive athletics but limits the intensity and duration of physical exertion such that sustained activity for over five minutes at 60% of maximum heart rate for age results in physical distress in spite of appropriate management of the health condition.
   **Note:** A condition that can be appropriately managed with appropriate medications, which eliminate physical or health endurance limitations, will NOT be considered to be eligible for adapted athletics.
   **Specific exclusions to PI competition:**
   The following health conditions **without coexisting physical impairments as outlined above** do not qualify the student to participate in the PI Division even though some of the conditions below may be considered Health Impairments by an individual’s physician, student’s school, or a government agency. This list is not all-inclusive and the conditions are examples of non-qualifying health conditions; other health impairments that are not listed below may also be non-qualifying for participation in the PI Division.
   - Attention Deficit Disorder (ADD)
   - Attention Deficit Hyperactive Disorder (ADHD)

B. CI Division – The MSHSL Adapted Athletics CI Division program is specifically intended for students with cognitive impairments who have medical clearance to compete in competitive athletics. A student is eligible to compete in the CI Division by meeting criteria 1 or 2 below:

1) Minnesota Rule: 3525.1333 DEVELOPMENTAL COGNITIVE DISABILITY

Subpart 1. Definition. ”Developmental Cognitive Disability (DCD)” means a condition resulting in significantly below average intellectual functioning and concurrent deficits in adaptive behavior that adversely affects educational performance and requires special education and related services. DCD does not include conditions primarily due to a sensory or physical impairment, traumatic brain injury, autism spectrum disorders, severe multiple impairments, cultural influences, or inconsistent educational programming.

Subpart 2. Criteria. The team shall determine that a pupil is eligible as having a DCD and is in need of special education instruction and related services if the pupil meets the criteria in items A and B.

a) The pupil demonstrates below average adaptive behavior in school and home, and, if appropriate, community environments. For the purposes of this item, ”below average” means:

(1) a composite score at or below the 15th percentile on a nationally normed, technically adequate measure of adaptive behavior; and

(2) documentation of needs and the level of support required in at least four of the seven adaptive behavior domains across multiple environments. Systematic observation and parent input must be included as sources to document need and level of support. All of the following adaptive behavior domains must be considered:

(b) social and interpersonal skills;
(c) communication skills;
(d) academic skills;
(e) recreation and leisure skills;
(f) community participation skills; and
(g) work and work-related skills.

Other sources of documentation may include checklists; classroom or work samples; interviews; criterion-referenced measures; educational history; medical history; or pupil self-report.

b) The pupil demonstrates significantly below average general intellectual functioning that is measured by an individually administered, nationally normed test of intellectual ability. For the purposes of this subitem, ”significantly below average general intellectual functioning” means:

(1) mild-moderate range: two standard deviations below the mean, plus or minus one standard error of measurement; and

(2) severe-profound range: three standard deviations below the mean, plus or minus one standard error of measurement.

Significantly below average general intellectual functioning must be verified through a written summary of results from at least two systematic observations with consideration for culturally relevant information, medical and educational histories, and one or more of the following: supplemental tests of specific abilities, criterion-referenced tests, alternative methods of intellectual assessment, clinical interviews with parents, including family members, if appropriate, or observation and analysis of behavior across multiple environments.

2) Students will also be eligible for the CI Division if they meet the following criteria:

The student must have a diagnosed and documented cognitive impairment. Cognitively impaired refers to students with sub-average intellectual function defined by a Full Scale intelligence quotient of 70 or below, using a standardized, nationally-normed, technically adequate, and individually administered intelligence test.

Specific exclusions from CI competition:

A student becomes ineligible to participate in Adapted Athletics when they have attained a level of cognitive performance that exceeds the eligibility requirements. A student who has reached a level of cognitive performance that exceeds the eligibility requirements after the start of a season will be permitted to complete that sports season.

C. Challenges to a student’s eligibility to participate in PI and CI adapted athletics:
A school may file a written challenge regarding a student’s eligibility to participate in Adapted Athletics based on the qualifications stated above. Challenges must be submitted within 24 hours of the end of the game in which an alleged ineligible player participated. A challenge submitted after the deadline will not be honored. The student shall remain eligible during the review process. The committee’s findings will be final and follow the student through the remaining years of eligibility unless there is a change in physical or cognitive status.

1) Upon receipt of a written challenge the League will activate the following review process:
   a) request a brief statement from the school/coach supporting the eligibility of the athlete; and
   b) review the school’s/coach’s submission and the school’s supporting data (testing, medical history, school documentation) by one reviewer who will submit a brief written statement regarding the eligibility status.

2) Appeal Process:
   If the initial review denies eligibility an appeal can be requested. A panel of three (3) reviewers will be convened. Two (2) of these reviewers must be from different disciplines (MD, Adapted PE teacher, PT, etc). The school/coach will be asked to submit a video of the player during a game or during PE class that will best demonstrate the disability. The video will be at the schools expense.
